

## Greg Drechsler

My Name is Greg Drechsler. I have had the privilege of being on council the past 4 years and have held the position of Mayor for the last year. It's been a very rewarding experience working for and with the residents of the Summer Village of Larkspur.

I feel that my previous experience as a councillor qualifies me to help the Summer Village complete several projects that our current council has been working on.

- The IDP (Inter-municipal Development Plan).
- Placement of Docks and Lifts on the reserves. Adhering to the Apr 2021 Provincial law.
- Flooding within the Summer Village.
- Helping to create the Larkspur Natural Area Society.

I realize that being on council is challenging. There are many difficult decisions that have to be made and addressed while maintaining the best interests of the residents of the Summer Village. I welcome the opportunity to once again work with a great council and our Chief Administration Officer to complete many of the projects that were started this last 4 years as well as any new projects that come up.

I would like to thank Nick Tywoniuk and Gerry Keane for all their hard work on council as they pass the torch to a new group of councillors.

Greg
