

Jason Meliefste

My family have been proud residents of the Summer Village (10 Maple Crescent) for approximately 6 years although we've been guests in the area for many years before. We enjoy many activities with our three young kids in all seasons. We're drawn to the environment, both lake and land, as well as the community and neighbours many of whom have become friends.

I'm looking forward to the opportunity to support our Summer Village further by running for Council. Our community is precious to my family and our neighbours and I'm hoping to be able to help as Councillor in protecting and preserving what we have for our generations and the many years ahead. I have been in local government with the City of Edmonton for over 20 years and have had experience in many aspects of creating policies and bylaws as well working with citizens and neighbouring municipalities in a collaborative manner. Serving a community is hard work and I'm hopeful that you will support me in continuing to ensure our Summer Village is a great place we all love.

Thank you to all the past council members for their hard work and thank you to the other candidates for allowing their name to stand in this election.

Have a great summer !!

Jason
